

Plan the Best Patient TV Experience *to satisfy patients in your clinic*

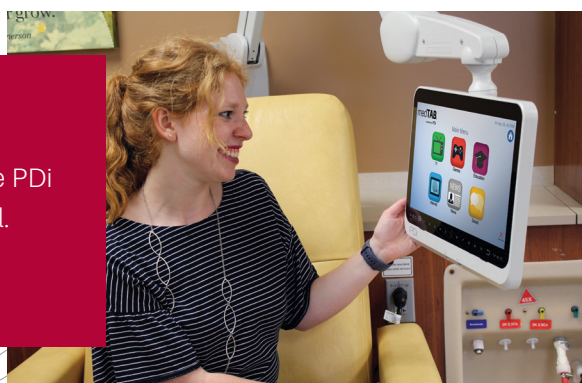

STEP 1 **KNOW** YOUR SIGNAL SOURCES

You can select cable TV, satellite TV, or local TV channel options. Choose smart apps or not. You can even show patient education or a welcome video from a website or DVD.

STEP 2 **DECIDE** HOW TO DELIVER THE SIGNAL

Most clinics have fewer TVs than the number of channels. The PDi Minimods are a cost-effective solution to distribute your signal.

Need help? Call 800.628.9870

STEP 3 **CHOOSE** UL-LISTED PATIENT TV DISPLAYS

Do you realize there are specific TVs built for long hours of daily use in healthcare, and designed for infection control? Choose medTV® or medTAB® personal displays by PDi & guaranteed installation.

At **PDi**, we do what is right. We put our customers' and their patients' needs first. We design solutions with patient satisfaction and patient engagement in mind.

40
YEARS of CARE

For 40 years, **PDi** has been a leader in serving healthcare providers with products to fit the demanding and evolving needs of healthcare environments.

Every step of the way, we are problem-solvers.

How can we help you satisfy patients at your facility?
