

Save Time and Deliver Consistent Patient Education *at your surgery center*

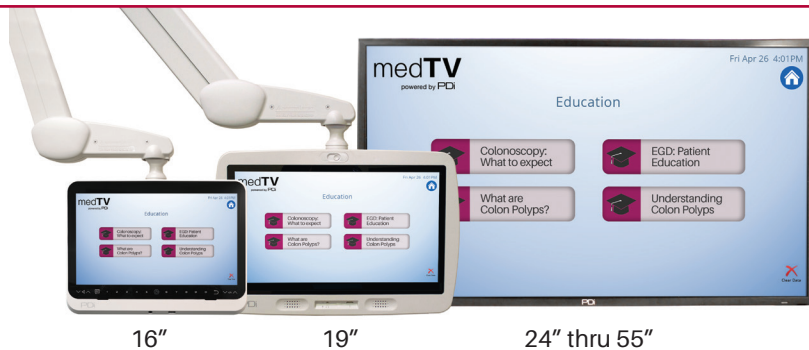

PREPARE YOUR SURGERY PATIENTS AND STAFF FOR A SUCCESSFUL EXPERIENCE.

Do you feel like your outpatient staff are continually repeating the same pre-op and post-op instructions to patients?

The Right Technology Can Help Patients Feel Confident and Calm

- Choose medTV® Smart TV technology by PDi to introduce your patients and caregivers to your surgeons while they wait in the lobby and start building their trust.
- Choose medTAB® personal touchscreen displays by PDi in the private exam rooms to consistently educate patients. This will improve the quality of their understanding to better engage them in their care plans, and save staff time.

PDi sets the standard in personal patient TV systems.

We build the most patient TVs and tablets in the US, and offer guaranteed installation services.
