DIRECTV Satellite Interface Module

Best used where
you have fewer
TVs than channels

PART NUMBER: PD295-001
1.03" W x 7" L x 3.46" H
Weighs 8.4 oz.
2-yr Warranty

This innovative solution by PDi gives patients access to every channel the facility is paying for, and provides seamless control of DIRECTV, in-house patient education channels, DVD, or rooftop antenna channels.

BENEFITS

- Cost-effective solution to greatly expand channel access and entertainment options for patients.
- Allows direct access to all set top box functions via PDi medTV keypad, IR patient remote, or pillow speaker.
- Customizable key mapping
- Powered over USB from DIRECTV receiver.
- Fits all standard minimod racks.

TECHNICAL FEATURES

- Works with medTV¹⁴, medTV¹⁶ or medTV¹⁹
- Requires Pro:Idiom TVs and CCI.
- Best used where you have fewer TVs than channels (for more TVs than channels, use a DIRECTV COM3000)
- Does NOT tie into Hospital IT Systems. DIRECTV is Cloud-based and uses ENET to the DIRECTV Cloud only.
- Does not use external power.
- Uses DIRECTV's proprietary 2-way data port.

COM3000

Best used where
you have more
TVs than channels

COM3000 is the next-generation HD and 4K headend video solution ideal by DIRECTV for large installations and IPTV.

TECHNICAL FEATURES

- Works with medTV¹⁴, medTV¹⁶ or medTV¹⁹
- Requires Pro:Idiom TVs
- Remote access
- Small footprint

TYPICAL DIRECTV CONTRACT THROUGH PDI

- Requires Minimum 1-yr Subscription, with optional 5-yr Service Agreement
- Available from PDi or Authorized DIRECTV Distributors
