

## Satisfy Patients with Stunning HD Picture and Seamless Control of Every Channel

### INNOVATIVE SOLUTIONS DESIGNED FOR HEALTHCARE

PDi Set Top Box solutions deliver seamless control of HDMI® video input, DIRECTV®, and satellite set top boxes. Patients simply use the TV keypad, touchscreen, or pillow speaker controls, no Set Top Box remote needed.

### COST-EFFECTIVE SOLUTIONS TO EXPAND ENTERTAINMENT

Unlock patient access to every channel your facility is paying for, plus provide access to patient education videos, rooftop antenna channels, DVDs and more.

### DESIGNED FOR EASY INSTALLATION

Fits all standard minimod racks. Fewer components make it easier to install and less complex to maintain.

## BELLA-HD Set Top Box

### Deliver a beautiful HD signal, farther.

- Combines streaming HDMI video and CCI Set Top Box control over the same CAT6a cable
- Provides higher resolution than using a modulator to transmit video to hospital TVs
- Connects to TV via standard CAT6a cable and provides homeruns up to 250 ft, no PoE. Cat5e cable, homerun distance is 200ft, no PoE
- Eliminates the need for a modulator or HDMI extender

*Simply elegant.*

## ALL PDi Minimods

- Eliminate need for set top box remote
- Customizable key mapping
- On-screen custom programming
- Fit standard minimod racks
